YOGESWARACHARY MODEPALLI

Junior Data Scientist | Associate Data Scientist | Python | SQL | Machine Learning

Hyderabad, India | +91 9676106803 | myogeswarachary@gmail.com
Portfolio: ymodepalli.in
GitHub: https://github.com/Yogeswarachary
LinkedIn: https://www.linkedin.com/in/yogeswarachary-modepalli-4a91571b8/

PROFESSIONAL SUMMARY

Junior Data Scientist with hands-on experience in data cleaning, exploratory data analysis, feature engineering, statistical analysis, and machine learning using Python, SQL, Pandas, NumPy, Scikit-learn, and Streamlit. Built end-to-end projects in fraud detection, hypothesis testing, inventory optimization, and financial fraud research, with experience translating raw data into actionable insights. Familiar with classification, model evaluation, SMOTE, XGBoost, logistic regression, random forest, and data visualization, with a B.Tech in Computer Science and Engineering.

TECHNICAL SKILLS

Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Feature Engineering, Data Visualization

Machine Learning: Scikit-learn, Logistic Regression, Random Forest, XGBoost, SMOTE, Classification, Model Evaluation, Predictive Modeling, Cross-Validation, Feature Selection

Statistics: Hypothesis Testing, A/B Testing, Regression Analysis, Statistical Analysis

Visualization: Matplotlib, Seaborn, Power BI

Tools: Streamlit, Jupyter Notebook, VS Code, GitHub, FastAPI

Concepts: Fraud Detection, Business Analytics, Real-Time Inference, Data-Driven Decision Making.

PROJECTS

JPMC Fraud Detection (Capstone → Production Apps) | Python, Scikit-Learn, FastAPI, Streamlit, Render/Vercel
GitHub: Capstone Pipelines, Bulk Deployment, FraudMap Tool, Fraud Detection Realtime App
Live App: Bulk Transaction Fraud Detection App, FraudMap, Fraud Detection Realtime App

- Analyzed 6M+ JPMorgan and Chase data rows building fraud models with SMOTE, LR/RF/XGB, 95% recall tuning.
- Validated pipelines across 4 versions for imbalanced classification accuracy.
- Deployed apps for bulk/realtime prediction supporting data science workflows.
- Extracted insights on transaction patterns via EDA and risk mapping.

DHL Inventory Optimization Analysis | Python, Pandas, Hypothesis Testing
GitHub: Inventory Optimization Analysis
Live App: Inventory Optimization App

- Conducted hypothesis testing on inventory data uncovering workflow inefficiencies.
- Performed EDA revealing key metrics for supply chain improvements.
- Built Streamlit tool for interactive insights and decision support.

Cookie Cats Hypothesis Testing| Python, Hypothesis Testing, Streamlit
GitHub: Cookie Cats
Live App: Cookie Cats

- Applied A/B testing analyzing game retention metrics post-level changes.
- Used statistical tests determining significance of user engagement shifts.
- Visualized results in Streamlit for product optimization recommendations.

ML Trading Project | Python, Regression Models, Streamlit
GitHub: ML trading
Live App: ML Trading

- Developed predictive regression models for financial trading signals.
- Evaluated model performance with metrics like RMSE on time-series data.
- Delivered deployable insights for data-driven investment strategies.

PROFESSIONAL EXPERIENCE

Student Visa Process Executive | Gateway Visas & Immigration Consultancy | Hyderabad
Aug 2024 – Sep 2025

- Managed structured workflows, status tracking, and record accuracy across active cases.
- Improved processing efficiency through documentation handling and follow-up management.
- Coordinated stakeholder updates while maintaining consistency and process accuracy.

Process Analyst | LaGlobal Overseas Edu | Hyderabad
May 2023 – Jul 2024

- Analyzed workflows and tracking systems, reducing turnaround time by up to 50%.
- Improved process visibility and supported structured reporting.
- Reviewed records and monitored updates to maintain operational accuracy.

Admissions Expert | Flywise Overseas Edu | Hyderabad
Jan 2023 – Apr 2023

- Provided counseling to the interested students about the USA student visa process.
- Maintained records, tracked statuses, and supported documentation workflows.
- Ensured accurate information management and timely stakeholder communication.

Java Developer Intern | Pratian Technologies | Bengaluru
June 2022 – Sep 2022

- Assisted in Java-based application development and testing.
- Gained exposure to debugging, software workflows, and technical collaboration.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Jawaharlal Nehru Technological University, Hyderabad
Jun 2017 – Nov 2020

CERTIFICATIONS

- Accelerator in Business Analytics and Data Science Program – **Hero Vired**
- HarvardX: Introduction to Data Science with Python – **edX**
- Generative AI for Data, Tech & Finance – **edX**
